Transfer Videos from iPhone to iPad Wirelessly

Just get back from a trip and have a ton of videos on your iPhone? Why not go to a friend's house and let them download your vacation videos without connecting to their iTunes? I bet you do not like to sync your iPhone to others' iTunes or computer. We recommend a faster way to transfer video from iPhone to iPad wirelessly in this tutorial. Without computer, iTunes or any cable, to transfer videos from iPhone to iPad what all you need is Wifi.

We know that to move video from iPhone to iPad through iTunes and computer is the hassle. So we suggest the Wifi video transfer from iPhone to iPad. Are you ready to get your videos copied around? If so, head on over to app store and [download Wireless Transfer App](#) to the iOS devices.

How to transfer videos from iPhone to iPad over Wifi?

1. Connect the iPhone and iPad to the same Wifi network

You can make use of a public Wifi network as well. So wherever you are, as long as there is a Wifi connection available, you can copy videos from an iPhone to iPad, or vice versa.

2. Run the photos transfer app on both the iPhone and iPad

Tap the "Receive" button from the main interface of the Wifi transfer software on your iPad. Then you will find the iPhone is displayed on your iPad, you can access your iPhone camera roll right on your iPad.

If you are using a public Wi-fi network in a hotel, restaurant, airport, school, etc, better to enable the secure Wifi transfer by setting a password on the Wireless Transfer App. So anytime an unknown iPhone/iPad/iPod touch users attempting to use the Wireless Transfer App to access your Camera roll on the iOS device, they will need to pass the authentication.

3. Send Video from iPhone to iPad Wirelessly

Now you can locate all the videos/movies on your iPhone from your iPad, browse through the iPhone video library on your iPad and select the movie/video clips you like to download/copy from your iPhone to iPad. Multiple video clips transferring is supported. You can transfer videos from iPhone to iPad in a batch mode.

This iPhone to iPad Wireless Transfer App is incredibly simple to use. Without computer, iTunes, or USB cable, just the Wifi transfer app for your iOS devices, in mere three steps you can transfer video from iPhone to iPad wirelessly over Wi-fi. Enjoy!
